Preparing For RSD Attendance

It is imperative that each member know their training needs before they show for each RSD.

Please follow the steps under "Checking Your Currency" and print/review your training requirements and currency **prior to drill weekend.**

The training schedule for each individual drill will be emailed to all personal email accounts the week leading up to drill. Block training schedules should remain unchanged.

Checking Your Currency

1. **Check Ground Currency via ARCNet**
 - a. Navigate to <https://www.my.af.mil/arcnetprod>
 - b. Click on "ATMT" at the top.
 - c. Once you have completed a CBT in ADLS, it usually takes 24 hours for it to show updated on ARCNet so there is no need to turn in certificates to HARM (except for the CBTs listed below).
 - d. You do need to print out certificates to turn in to the HARM office for the following 4 CBTs: **Human Relations, Force Protection, Security Administration, and LOAC.**
 - e. For ARCNet questions, talk to MSgt Marvin Morgan 726-7504.
2. **Check Ground and Flying Currency via the Aviation Resource Management System (ARMS)**
 - a. Navigate to <https://www.my.af.mil/armsprod/aircrewSummary/serVlet/ArmsServlet>
 - b. Check the "Training Tasks and Accomplishments" box and hit "Submit."
 - c. **Click on the "Training" tab.**
 - d. You can click on the headers to sort the list for easier navigation. For example, if you want to see what you are coming due for, click on the "Due Date" header and it will sort the list for you by due date. If you want to sort the list alphabetically, click on the "Task Name" header...
3. **Check your PHA/Shots using the Aeromedical Services Info Management System (ASIMS)**
 - a. Navigate to <https://imr.afms.mil/imr/MyIMR.aspx>
 - b. If you need to print out your shot records, click on "View DD2766c."
4. **Check your Fitness test due date using the Air Force Fitness Management System(AFFMS)**
 - a. Navigate to https://www.my.af.mil/affms/cfm/fms/index.cfm?FuseAction=Fitness_Home

Training Plan Specifics

Please understand, your currency and proficiency are your responsibility. We are here to help you schedule the training you need to maintain both. If you have any questions or require any assistance, please feel free to visit training with any and all questions.

Block training has been scheduled on four RSDs this year. March and September RSDs will mirror each other as will June and October. Training offered on Block Training RSDs will only be provided during this time. If you attend either March or September RSD as well as either June or October RSD, you will receive the training required to stay current on all pertinent ground training.

The following training will be provided as needed and coordinated for you upon request:

- Lautenberg
- Physiological (Altitude Chamber)
- Emergency Parachute Refresher (SS06)
- NVG Refresher (NV03)
- IRC Hot Topics briefing, provided every RSD, must be attended in conjunction with the IRC CBT located on the AMC ADLS website in order to receive credit for G130
- CSI/CAC (SS07/SS03) – We now have a SERE specialist on staff, so this class will be taught during every Block RSD (March, June, September, and October) and can also be taught during the week

Determining your training and currency requirements:

1. All unit members must be current on the Mobility (non-AEF) items listed below and accomplish a Mobility Folder Review annually. To receive credit, members must show proof of training/currency to the UDM.
2. All aircrew must be current on all items on both of these tables. The Mobility items listed below are required to credit C040.

Checking your currency:

1. For Aircrew, see "Checking Your Currency".
2. Place a √ in the left-most column of the applicable table for items to be accomplished this year and fill in the due date.
3. Determine which RSD you plan to accomplish the training (for items only available during block training) and fill in the "Projected completion date" column.
4. Track completion of your training in the "Actual Date Accomplished" column and compare those dates to subsequent training completion printouts. Resolve any discrepancies as soon as you can.
